

DÖTTLING

FINEST GERMAN HANDCRAFT
SINCE 1919

the
CHameLeON
High Flexibility Luxury Safes

The company can look back on nearly one hundred years of history. The manufactory in the southern German town of Maichingen has been home to the finest locksmith and blacksmithing craftsmanship since 1919. Unique the world over, the "Legends" collection consists of highly exclusive antique safes, while "The Bel-Air" series encompasses newly crafted, high-security luxury safes. Both are raising the benchmark in quality and aesthetics worldwide.

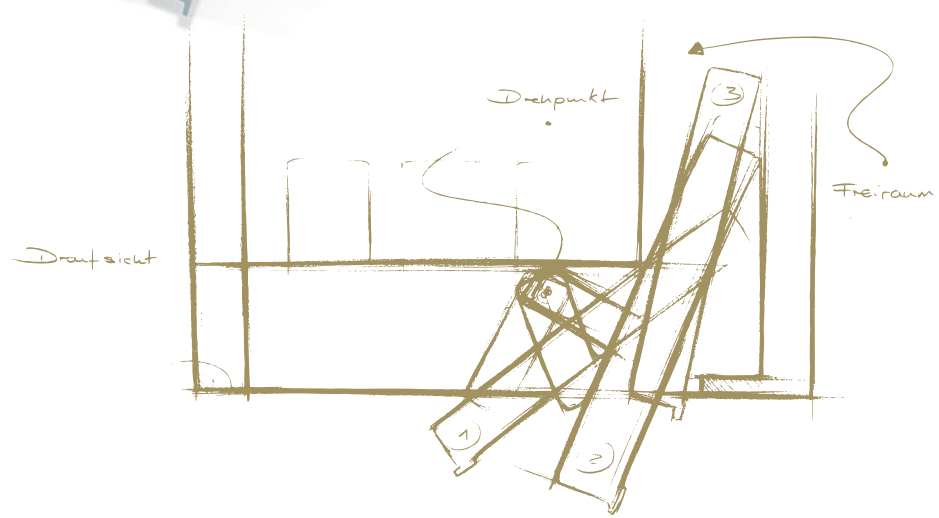

Döttling has not lost sight of its clients' functional demands either, however. The engineers at Döttling therefore developed "The Chameleon", a high-flexibility luxury safe offering an unparalleled mixture of beauty and functionality. Guaranteeing unrivalled security standards, this Döttling safe is capable of performing the same feat as its shy namesake—adapting to its surroundings.

The interior and exterior measurements of "The Chameleon" can be built to any size requested. When opened, the swinging door of the safe disappears inward.

"Repeatedly, I was asked to develop a safe that can be integrated into existing furniture and closet systems, or which can be used in areas with limited space, such as the interior of a yacht," says Andreas K. Schlittenhardt, managing director of Döttling. "'The Chameleon' is our answer."

“The Chameleon” can be built to any size and its interior fully customized. It is literally custom-tailored to the client’s wishes.

The only guidelines for the interior fittings are the client’s personal passions—no matter whether humidors, cocktail bars, jewelry compartments, watch winders, collector’s cabinets, or lockable drawers are required.

The broad range of exquisite materials that can be selected for the interior and exterior transform the safe into an impressive and unparalleled piece of security furnishing.

Like all safes from the Döttling manufactory, each "The Chameleon" is far from standardized. We transform aesthetic concepts into reality—in cooperation with renowned interior designers from all over the world, or with you personally.

In keeping with your personal ideas, we design entirely unique pieces, crafting them to accommodate your wants and needs step by step.

The safe that provides your treasures with such impressive protection in your home first takes shape in your mind's eye before being brought to life by the finest craftsmanship in our workshops.
